

RHINOLOGY

ADVANCED RHINOPLASTY SET

Tailored for Experts

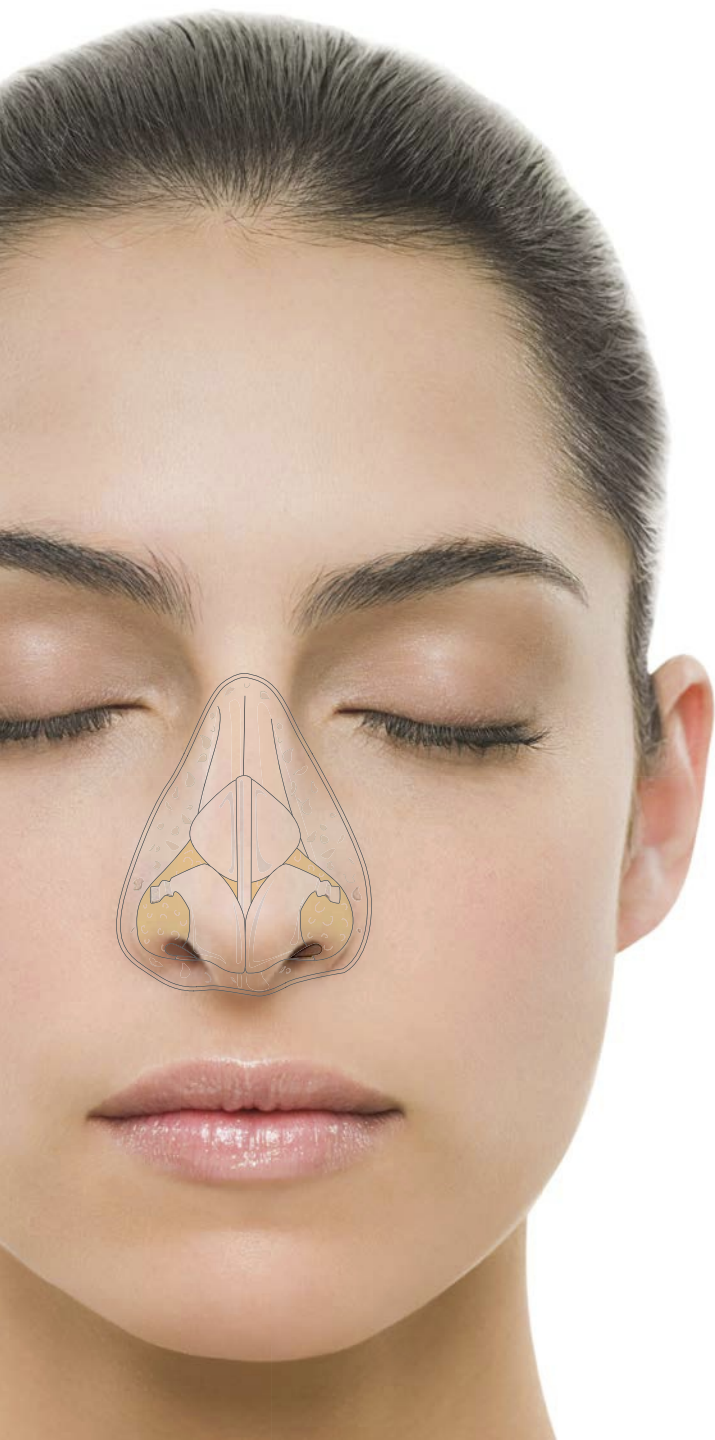

FUNCTIONAL AND ESTHETIC SURGERY OF THE NOSE

Advanced Rhinoplasty Instruments

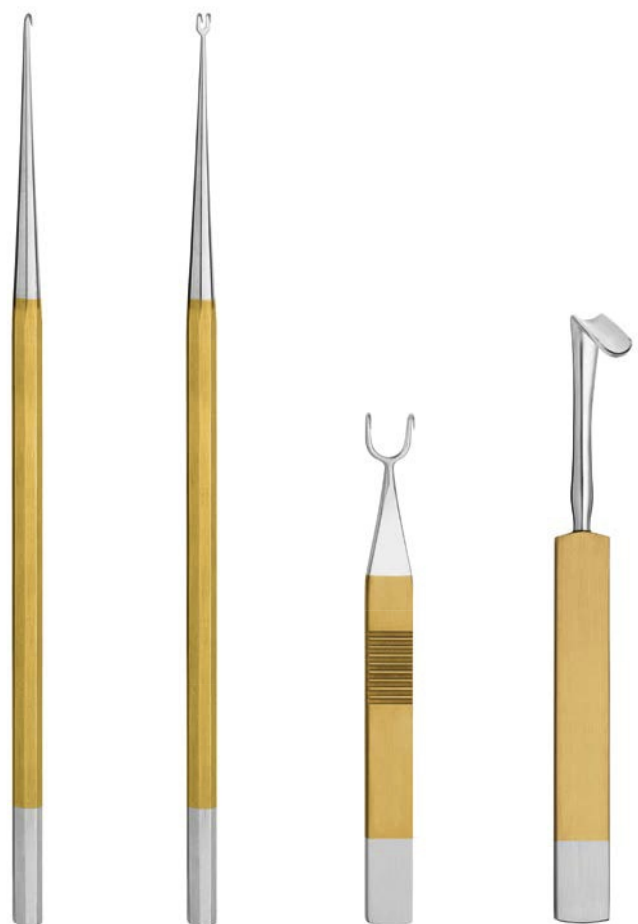

Including a selected choice of high-quality instruments, this set is state-of-the-art for rhinoplasty procedures. These precision instruments are gold-plated and have been carefully designed to supplement the standard instrument set.

- Superb quality instruments for contemporary surgical techniques

Defined and Delicate Hooks and Specially Shaped Nasal Retractor

- Micro skin hooks, sharp
- Skin hook, sharp
- Nasal retractor, "Aufricht" type

ELABORATE DESIGN FOR PRECISE PROCEDURES

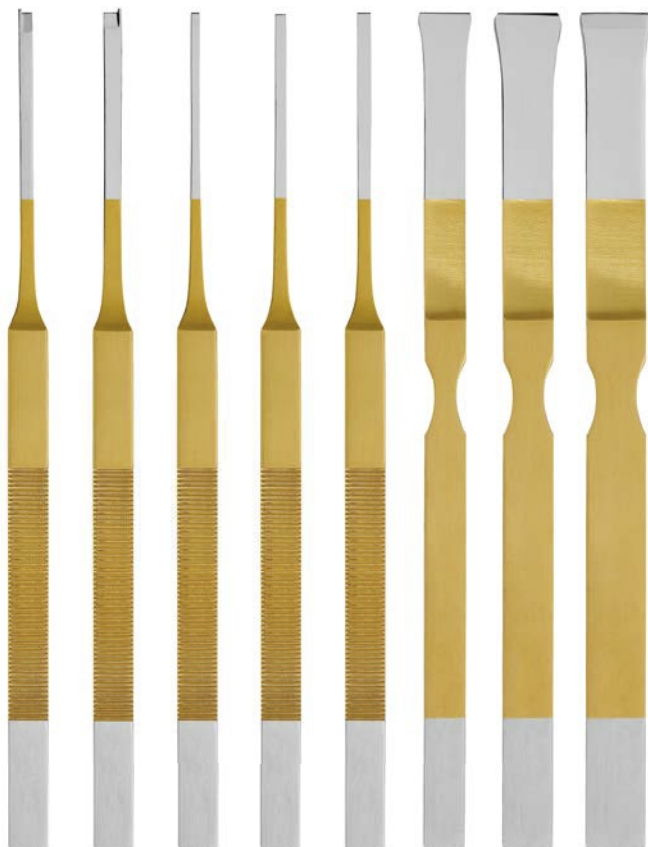

Sharp and Precise Osteotomes

- Micro osteotomes, with and without guard
- Hump osteotomes
- Special steel features and final conditioning guarantee long-lasting sharpness and durability.
- Postoperative ecchymosis and edema are significantly reduced.
- Scar tissue and hematoma are minimized.

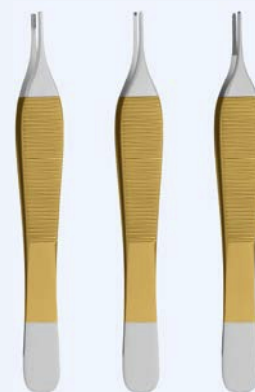

Complementary Instruments

Fine straight and curved scissors as well as the dissection scissors “Kilner” type and angled “Walter” type are used for precise cutting.

Tissue and dressing forceps with fine teeth and serrations guarantee safe preparations.

Elaborate varieties of **nasal rasps** allow defined ablation of bone and cartilage.
